Twelve single-engined, high winged monoplanes and four PO-2's were observed for the first time on Rangsdorf airfield on 16 August. Seven large crates measuring 7 x 2.5 x 2.5 meters and having a width of 1.5 meters on the top arrived on the same day. No air activity was seen.

Comment: If the observation is correct, the planes seen on the airfield are probably YAK-14'S.
